INSPIRED BY
MOROCCAN ARTISTRY,
CRAFTED FOR REFINED
&
FUNCTIONAL
BATHROOM SPACES.

Constructed from high-grade ceramic, the basin undergoes a controlled firing process that strengthens the body and secures long-term durability.

The patterned artwork is applied using advanced surface-finishing methods that preserve the sharpness of the design and maintain color stability over extended use. The glaze layer creates a sealed surface that prevents moisture absorption and protects the intricate detailing beneath. This combination of craftsmanship and engineered finishing ensures dependable performance in both residential and commercial applications while retaining the authentic, handcrafted aesthetic associated with Moroccan decor.
